

# ANKIT RANJAN

## Web3 Developer

📞 7463861547 📩 rickranjan.369@gmail.com 💻 LinkedIn/Portfolio 🌐 Roorkee

## SUMMARY

With experience in both **frontend and backend development**, I can seamlessly connect Web3 technologies with traditional web applications. I specialize in integrating **React, Node.js, and APIs** with decentralized protocols, making me a strong asset for innovative projects.

I have a deep understanding of decentralized technologies, including **Ethereum, Solidity, and smart contract development**. My ability to build and optimize secure, scalable dApps ensures I can contribute effectively to blockchain projects.

## KEY ACHIEVEMENTS

### Website Optimization

Increased website efficiency by 30% through optimized code

### Protocol Integration

Implemented decentralized protocols boosting user engagement by 40%

### Smart Contract Development

Developed 10 smart contracts enhancing security for blockchain projects

### Team Leadership Success

Led a team to achieve 50% faster deployment using React and Node.js

## EXPERIENCE

### Full Stack Developer

#### Utsav AI

⌚ 2025 🌐 Roorkee

🔗 <https://utsavai.com>

**Utsav AI** is an innovative event management startup that uses **artificial intelligence** to streamline event planning, coordination, and execution, ensuring seamless and intelligent experiences.

- I designed and developed a fully functional, end-to-end website for Utsav AI, optimizing performance and responsiveness to deliver a seamless and enhanced user experience.

## EDUCATION

### B.Tech in Computer Science

#### Quantum University

⌚ 2025 - 2028

## SKILLS

### Web Development

### Blockchain Development

## INTERESTS

### Development of Web3

### Develop highly efficient and secure cryptocurrency

## STRENGTHS

### Technical expertise

Understanding of frontend and backend development

### Innovative tech solutions

Integrating React, Node.js, and decentralized protocols

### Security and scalability

Optimizing secure, scalable decentralized applications

### Seamless user experience

Designing end-to-end websites for enhanced user action
